

One Health Commission
World Health Through Collaboration

Clyde J. Behney
Deputy Executive Director
Institute of Medicine of the National Academy of Sciences

Clyde J. Behney, MBA, is Deputy Executive Director of the Institute of Medicine of the National Academy of Sciences. He oversees IOM's peer review process and its communications and dissemination activities, as well as other activities related to the quality of IOM publications and activities. He is responsible for various, typical deputy functions and in addition directs IOM's Office of Reports and Communications.

He has served as Interim Executive Director of IOM in summer of 1998 and in fall and winter of 2007. He has been acting staff director for the Board on Global Health, the Board on Health Promotion and Disease Prevention, and, twice, the Board on Health Care Services. From 2005 to 2006 he was IOM's Liaison Member of the Board of Directors of the National Quality Forum.

Prior to coming to IOM, he was Assistant Director of the congressional Office of Technology Assessment and Director of the OTA division responsible for health, life sciences, the environment, and education and human resources (1993-1996). From 1981 until 1993 he was the director of OTA's Health Program, and before that served as study director for five research projects.

He was the co-founder and, from 1981 until its end in 1985, executive director of the Sorcerer's Apprentice Network (a predecessor of the International Society for Technology Assessment in Health Care) and editor of its newsletter, *The Sorcerer's Apprentice*. He has served, or continues to serve, as a peer reviewer for Health Affairs, the Milbank Quarterly, Medical Care, Health Services Research, and the American Journal of Public Health. Past professional activities include serving as a member of the Milbank Memorial Fund Technical Advisory Board, 1998-2001, and of the National Health Policy Forum's Steering Committee, 1998-2000.

He received his B.S. from Lehigh University and his M.B.A. from the University of Maryland. He completed all requirements short of the thesis for his doctorate in science and technology policy at George Washington University. He will never write that thesis.
