

Washington University School of Medicine, St. Louis, Missouri One Health Day 2016 Student Competition Team

(* Indicates Team Leader)

Event Title: One Health Poster Competition at the WAMCOH Inaugural One Health Conference

(WAMCOH, Washington, Auburn, Missouri Coalition for One Health)

Contact: Dean Odegard (dtodegard@wustl.edu)

Allison Siu, MPH

DVM Candidate
College of Veterinary Medicine
Auburn University
Auburn, Alabama, USA

Allison is a DVM candidate (Class of 2019) at Auburn University College of Veterinary Medicine. She first became interested in One Health while obtaining her MPH at the University of Louisville. She is currently working as a Saul T. Wilson scholar for USDA APHIS. She participated in research in the disease ecology lab at Auburn University which led her to conduct summer research at the CDC on *Plasmodium sp.* in mosquitoes from Madagascar. She founded the first Students for One Health Club at Auburn University, serves as the One Health liaison for the Student American Veterinary Medical Association (SAVMA), and was recently elected to the SAVMA Global and Public Health Officer-elect position. She hopes to continue working in public health veterinary medicine as a One Health advocate after graduation and is especially interested in emerging zoonotic diseases, conservation medicine, and the issue of antimicrobial resistance.

Kelsey Haddad

PhD Candidate
Energy, Environmental, and Chemical
Engineering
Washington University
St. Louis, Missouri, USA

Kelsey is a third-year PhD student in the Energy, Environmental, and Chemical Engineering Department, whose thesis is focused on designing sensors for both biomedical and environmental monitoring applications. She believes in the importance of context, not just math and science, as an integral part of the development, implementation, and uptake of engineered solutions. The OneHealth mindset represents the type of problem solving strategy necessary to engage in meaningful dialogue across disciplines to tackle highly diverse challenges.

***Dean Odegard, BS, MS**

MD Candidate
School of Medicine
Washington University
St. Louis, Missouri, USA

Dean is an MD candidate in the class of 2019 at Washington University School of Medicine (WUSM) in St. Louis. He became interested in One Health while completing a masters in comparative physiology at Saint Louis University. As a medical student, he founded One Health at WUSM, Washington University's One Health interest group. He is passionate about conservation medicine, emerging infectious diseases, and fostering productive interdisciplinary collaboration among the three domains of one health.

Michael Schacher

PhD Candidate
Missouri Informatics Institute
DVM Candidate
College of Veterinary Medicine
University of Missouri
St. Louis, Missouri, USA

Michael is a DVM/PhD candidate at The University of Missouri College of Veterinary Medicine and Informatics Institute. He first became interested in One Health through the veterinary research scholars program at the University of Missouri, in which he was engaged in research within novel treatments for sepsis in animals and humans. He founded the Students for One Health Club at The University of Missouri and cooperatively developed The Global One Health Certificate in combination with Fontbonne. He is also in the process of developing a webinar series, in combination with both the certificate program and the One Health Commission. Currently, Michael has been awarded a NIH T32 Grant specifically in One Health and Big Data through the Informatics Institute.
