

Dr. Laura H. Kahn, a physician, is a research scholar with the Program on Science and Global Security at the Woodrow Wilson School of Public and International Affairs, Princeton University.

A native of California, Dr. Kahn holds a B.S. degree in nursing from UCLA, an M.D. from Mt. Sinai School of Medicine, a Master of Public Health from Columbia University and a Master of Public Policy from Princeton University. Before joining the Princeton University staff, she was managing physician for the New Jersey Department of Health and Senior Services, a medical officer for the Food and Drug Administration in Rockville, Maryland, an attending physician/educator at Prince George's Hospital in Cheverly, Maryland and a staff physician at Gouverneur Hospital in New York, New York. Dr. Kahn is a fellow of the American College of Physicians (ACP) and is a recipient of the New Jersey Chapter's Laureate Award. In 2010, the American Veterinary Epidemiology Society (AVES) awarded her with an honorary diploma for her work in One Health. In 2014, she received a Presidential Award for Meritorious Service from the American Association of Public Health Physicians.

From 2003 to 2005, Dr. Kahn led a two-year study assessing the public health infrastructures of New Hampshire, New Jersey, New York and Pennsylvania under a Josiah Macy, Jr. Foundation grant. In September 2005, she organized a conference at Princeton University on zoonotic diseases and the need to integrate human and animal public health infrastructure to enable effective responses to bioterrorism and pandemics. She was co-director and lecturer for the course, "Zoonoses: An Emerging Public Health Issue", for graduate and medical students at the Mount Sinai School of Medicine in New York City during the spring of 2006.

In April 2006, she published *Confronting Zoonoses, Linking Human and Veterinary Medicine* in the Center for Disease Control and Prevention's (CDC) *Journal of Emerging Infectious Diseases*. That publication helped launch the One Health Initiative (<http://www.onehealthinitiative.com>). In 2010 and 2011, she taught, "When Cows go Crazy: The inextricable links between human and animal health," to Princeton University freshman. She is the author of "Who's in Charge? Leadership during epidemics, bioterror attacks, and other public health crises" published in 2009 by Praeger Security International. She writes regular online columns for the *Bulletin of the Atomic Scientists*, and has published in many peer-reviewed journals. She is currently writing a book about the politics of antimicrobial resistance using a One Health approach.
