Collaborations don’t just spontaneously ‘happen’……

They start with relationships….. and ..............

Relationships don’t just form without an opportunity to ‘meet’ like-minded’ individuals
Main Goals of this Webinar:

- ‘Connect’ One Health stakeholders to share / highlight One Health efforts around the world
- ‘Create’ new strategic partnerships / networks for collective, purposeful and coordinated actions
- ‘Educate’ Webinar participants about the One Health paradigm and way of thinking
‘Connecting’
Local and Global
One Health Stakeholders

From this Webinar we hope that strategic partnerships will emerge as we form relationships and learn of each other’s One Health programs and efforts.

Closing Remarks

It’s Up To US…the One Health Community…to determine whether the world makes the paradigm shift to One Health thinking by default.

And

Together We Can make a Difference!!!!
Let us hear from you!
