INTERNATIONAL
ONE HEALTH for ONE PLANET EDUCATION
INITIATIVE
(1 HOPE)

VISION
A world where people of all ages embrace a One Health & Well-Being (OHWB) approach recognizing the interdependencies among humans, animals, plants and their shared environment.

AIM
Build global capacity for promoting and valuing the OHWB concept and approach as the foundation for achieving the UN-2030 Sustainable Development Goals (SDGs).

CONTRIBUTORS
Individuals/organisations from education and community groups invited from all global regions – Africa, Americas, Asia, Europe, Middle East, Oceania.

MOTIVATION
Striving to create a “more just, sustainable and peaceful world” (UN-2030 Global Goals): adopting the OHWB concept and educating the next generation of global citizens about the fragile and interconnected nature of the health and well-being of all living organisms at this time of unparalleled planetary change.

WORKING GROUPS
Drawn from and targeting Primary/Secondary/Tertiary education sectors and Community/Civil Society, Government (intergovernmental/non-governmental) / Corporate organisations.

COMMON 1 HOPE QUEST
To foster learning about the OHWB approach and the SDGs at all levels of formal and non-formal education (lifelong learning!) and to raise awareness of the long-term value of OHWB and SDG strategies in all sectors of our global community.

FOCUS
Act as a “connecting facility,” explore possibilities (local, country, regional, global) and develop draft project proposals (e.g., curricula, resources, conferences, policies) by mid 2020 – seeking funding from national/regional/global organisations to accomplish 1HOPE stated aims.
