

Who's Who in One Health

Connecticut Global One Health Coalition

1. Description and Scope of One Health Activities:

- To form a group of multidisciplinary subject matter representatives from government, industry, and academia.
- To provide a group of subject matter experts that can contribute to the content of academic programs.
- To produce and promote local, national, global, academic, public, private and non-for profit partnerships.
- To organize and disseminate information on One Health and One Health Activities in the State of Connecticut.
- To provide outreach and education on One Health and One Health Initiatives.
- To provide subject matter experts and recommendations for policy and planning for One Health Initiatives related to the State of Connecticut.
- To organize and provide students with One Health Mentors, internship opportunities, and projects within industry to promote the development of real life marketable skill sets.
