

Who's Who in One Health

Turkish Society of Microbiology One Health Working Group

1. **Organization website url:**
One Health Working Group TMC <https://www.tmc-online.org>

2. **Description and Scope of One Health Activities**

One Health is a cost effective, sustainable and practical approach for attaining optimal health for people, animals and the environment. Our aims to “educate” and to “create” networks to improve health outcomes and the well-being of humans, animals and the environment and to promote environmental resilience through a collaborative approach in Turkey. We aim to raise awareness about one health in both public and academics.

3. **Key Collaborators / Participants and contact information**

(Email address, Telephone, if they agree to share contact information on this posting in case One Health stakeholders want to contact them)

Serap SÜZÜK YILDIZ , PhD
Associate Professor Clinical Microbiologist
Ministry of Health, AMR References Lab
Executive Board Member, Turkish Society of Microbiology
serapsuzuk@gmail.com +905326824923

4. **Type of Organization** Private, Non-Profit Organization

5. **Address of Organization/ Group**

Molla Gürani Mahallesi, Gureba Hastanesi Caddesi No:35/3, Fatih/İstanbul/TURKEY

6. **Sources of funding for Organization/Group**

Membership fees

7. One Health Course/Certificate/Training Offered by Organization or Group

Title of Course/Certificate/Training:

ANATOLIA PROJECT: Antibiotic Resistance Practical Training in One Health Approach

Contact person's name and email: Serap SÜZÜK YILDIZ, serapsuzuk@gmail.com

8. Other One Health Activities/Initiatives

(Symposiums, Summits, Workshops, Discussion Series, etc)

National One Health Symposium and Workshop

21-23 November, 2019

Ankara, Turkey

<https://www.tmc-online.org/index.php?func=ActivityDetails&ID=77>

Contact person's name and email: Serap SÜZÜK YILDIZ, serapsuzuk@gmail.com

9. Brief History of Your Organization's One Health Involvement

One Health Working Group of TMC was established in the end of 2018 and pursuing national and international collaborations in one health approach, with the participation of multidisciplinary members from human health, animal health, food science and environmental health.

On November 21-23, 2019 the National One Health Symposium was organized in Ankara again, and there was the One Health Workshop on 23rd, the last day. It was important because some representatives of the World Health Organization (WHO) Turkish Office, WHO European Office, CDC, Ministry of Health, Turkish Association of Medical Doctors, Turkish Association of Veterinarians, Turkish Association of Pharmacists, Turkish Chamber of Food Engineers, Food Safety Society; Turkish Foundation for Combating Soil Erosion, Reforestation and Protection of Natural Habitats (TEMA) attended the symposium. The final report of the workshop is being worked on and will be extended to the attendees, stakeholders and all authorities when ready. An article about the symposium was published in the newspaper, titled "[Is the treatment of the sick world "ONE Health?](#)"

The most important point of symposium and workshop was so cheap (inexpensive) for all student participants, only 25 Turkish liras. We wanted to join us more young scientist.

Additionally, we gave a podcast about one health on TRT 1 Radyo.

We are doing consultant to municipalities for the fight against vector borne diseases.

We prepared "The awareness-training Program of One Health" for municipal employees.
